SHUBHAYAN SAHA

AI & FULL STACK DEVELOPER

PROFILE

People say AI and Block chain is the future of our generation but I believe it's much more than that. Well,I plan on integrating AI and Blockchain & Web in the future. Moreover just to mention actively working towards my goals and ambitions of life; also love working with new technologies. I lead a technical team in my college and also leading an AI & Blockchain based startup as a Cofounder.

EXPERIENCE

GAUIS NETWORKS | JANUARY 2020 - PRESENT
Software Development Intern || Chennai,India

My Primary Role involves working in their content curation systems built using Python, AI and also helping in deployment in their servers. It also involves working on their existing websites to implement Python Scripts for automation and adding features.

MCZONE | APRIL 2020 - MAY 2020
Full Stack Web Development Intern || Chennai, India

My roles and responsibilities included building their official website along with their associated companies. My work involved building their front-end as well as implementing 3D models in them.

THE GRAPHE | NOVEMBER 2019 - DEC 2019
Full Stack Web Development Intern || Chennai, India

My roles and responsibilities included building their official website along with their associated companies. My work involved building their front-end as well as implementing 3D models in them.

SRM IST, IIT KGP, UC DAVIS - SPARC | NOVEMBER 2018- JUL 2019
Artificial Intelligence Intern || Chennai, India

My work involved researching and implementing Image Processing and Computer Vision algorithms to detect and treat Diabetic Retinopathy, a disease which affects more than half the population
